Manufacturer Declaration

To: Norway Customers

The purpose of this document is to make known that the materials used for the manufacturing of Ginlong Technologies Co., Ltd. inverters is made out of non-flammable materials. To be clear the materials that are non-flammable are the chassis only. This does not cover the materials inside the chassis or connection points protruding from the inverter.

A fire plate is not required for installations behind the inverter unless the heat generation behind the inverter is in excess of the operation conditions of the inverters.

Also the surfaces of the inverters that will be in contact with the mounting surface will not exceed a maximum total temperature of 90°C under normal operation according to Clause 4.3.2.3 of IEC 62109-1.

The inverters covered by this declaration is as follows:

S5-GR3P(5-10)K-LV	S5-GR3P(3-20)K
S5-GC(15-23)K-LV	S5-GC(25-40)K
S5-GC(25-36)K-LV	S5-GC(50-60)K
S5-GC(50-60)K-LV	Solis-(50-60)K-5G-LV
Solis-(80-110)K-5G	S5-GC(80-110)K
Solis-(80-110)K-5G-PRO	S6-GC(80-125)K
S6-EH3P(3-10)K-H	S6-EH3P(12-20)K-H
S6-EH3P(29.9-50)K-H	S6-EH3P(5-12)K-H-LV
S6-EH3P(5-15)K-H-LV	

Best Regards
